Professional Summary

Results-driven 2nd-Year Engineering Student specializing in Data Science, Machine Learning, and Artificial Intelligence at D Y Patil College of Engineering, Kolhapur. Hands-on experience in engineering Computer Vision models, AI payment fraud detection systems, agricultural data analytics solutions, and responsive full-stack web applications. Proficient in Python, C/C++, Data Structures, ML algorithms, and Web Technologies.

Education

Bachelor of Engineering (B.E.) in Data Science

2024 – Present (2nd Year)

D Y Patil College of Engineering, Kolhapur, Maharashtra

Relevant Coursework: Data Science Foundations, Artificial Intelligence, Machine Learning, Python Programming, C & C++ Data Structures, Database Systems, Computer Vision, Web Technologies.

Technical Skills

- **Programming Languages:** Python, C, C++, JavaScript, SQL, HTML5, CSS3
- **Data Science & AI:** NumPy, Pandas, Scikit-Learn, OpenCV, Data Preprocessing, Machine Learning Pipelines, Anomaly Detection
- **Tools & Frameworks:** Git, GitHub, VS Code, REST APIs, Swiper.js, Feather Icons, Responsive Web Architecture
- **Soft Skills & Leadership:** Strategic Problem Solving, Team Leadership, Emotional Intelligence, Communication

Key Featured Projects

SecurePay AI — Intelligent Payment Security System

AI / FinTech

- Engineered an AI-powered payment security framework implementing real-time anomaly detection algorithms to prevent financial transaction fraud.

AgroScan AI — Agricultural Crop Disease Detection

Computer Vision / AgriTech

- Developed a Computer Vision diagnostic pipeline analyzing crop leaf images for early disease detection, optimizing treatment and crop yield.

KrishiSetu — Bridge for Farmers

Data Analytics / Web App

- Architected a smart agricultural analytics web platform providing farmers with real-time market insights, price analytics, and resource access.

80th Independence Day Wishes Platform

Interactive Web App

- Created an interactive web application featuring customized greetings, dynamic audio playback, and animated wish generation.

Personal Developer & Data Science Portfolio

Full-Stack Web App

- Built a responsive developer portfolio application featuring automated GitHub project sync, security hardening, and dynamic PDF resume export.

Certifications & Achievements

- **Hack2Skills Innovation & Hackathon Certificate:** Recognized for rapid prototyping and innovative technological solution design.
- **Python for Data Science Certification:** Specialized credential in numerical computing, data manipulation, and machine learning models.
- **Soft Skills & Communication Training (Level 1):** Certified in effective communication, presentation, and workplace etiquette.
- **Advanced Soft Skills & Leadership Mastery (Level 2):** Advanced certification in corporate readiness, team leadership, and emotional intelligence.
- **Technical Skill Development & Engineering Excellence:** Assessment credential in technical engineering competencies and project execution.
